Visiting Dignitaries from Lambda International Governing Board for - AUM-LAI Global Conference 2017

Ecosystem for Holistic Development

Lambda Alpha International's purpose, mission and operational activity is fundamentally achieved at the local Chapter level in meetings amongst renowned professionals. LAI functions as a confederation of Chapters, & develop Ecosystems for sustainable growth. The Presidents of each local Chapter are members of the LAI's Board of Governors. LAI believes that: A project using the full potential of land use planning methodology in an aesthetic order, enveloping resource facilities, and services, security, health, and transport, of urban and rural communities.

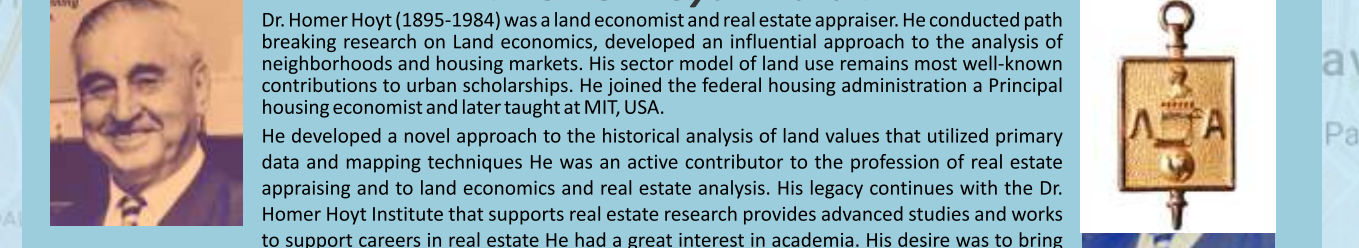

"India is fast developing, with a young leadership who has a definite agenda and hold out a promise for its 1.25 billion populace, with a wave of new age concepts for a holistic development.

India is making its mark felt globally as an emerging powerful economy with an assertive, independent, and confident contribution for a peaceful world to its full potential.

The new awakening of a business sense in our populace together with the new policy reforms in various sectors is heralding a movement of progress, opportunity, and promise across the country.

This is an opportunity for all, to take stock of this growing momentum in our land of opportunities, and move ahead to create a peaceful world."

Dr. Homer Hoyt Award :

Dr. Homer Hoyt (1895-1984) was a land economist and real estate appraiser. He conducted path breaking research on Land economics, developed an influential approach to the analysis of neighborhoods and housing markets. His sector model of land use remains most well-known contributions to urban scholarship. He joined the federal housing administration a Principal housing economist and later taught at MIT, USA.

He developed a novel approach to the historical analysis of land values that utilized primary data and mapping techniques He was an active contributor to the profession of real estate appraising and to land economics and real estate analysis. His legacy continues with the Dr. Homer Hoyt Institute that supports real estate research provides advanced studies and works to support careers in real estate He had a great interest in academia. His desire was to bring academia and industry together for mutual enhancement and enrichment of both. A division of the Homer Hoyt institute is known as the Hoyt Fellows.

Dr. Homer Hoyt to his credit has selected publications in structured Growth of Land Economics. Dr. Homer Hoyt was two times International Past President of Lambda Alpha International, An honorary Society for Land Economics in the year 1942 and 1950-51.

In commemoration of Dr. Homer Hoyt and his Contribution to Planning and Knowledge for Land Economics AUM-LAI Chapter will honour a distinguished personality/institute/industry representative by presenting this coveted award to recognize his/her contribution to the new age India for developments, criteria being:

- A project whilst safe guarding natural resources, and with a systematic assessment of land use, and water resources, with alternatives for land use, and due consideration to economic and social conditions, adopt the best land use pattern / option.
- A project with a definite land use pattern with a vision for future development amalgamating future neighborhoods, districts, villages.

AUM-LAI GLOBAL CONFERENCE 2017
LAMBDA ALPHA INTERNATIONAL

Make in India - Drivers for Sustainable Urbanisation
Land Economics, Infrastructure Development and Finance
HOTEL TRIDENT, NARIMAN POINT, MUMBAI (INDIA) | MARCH 11,12,13 - 2017

*This is for internal/private circulation only

Incredible India

INDIA

the land of opportunities...

Maharashtra at the forefront, for 'Ease Of Doing Business'. Changes formulated by the central Government, viz. "NITI Aayog", (National Institution for Transforming India) is a Government of India policy think-tank established by the government to replace the Planning Commission. The stated aim for NITI Aayog's creation is to foster involvement and participation in the economic policy-making process by the State Governments of India. The emphasis is on bottom-up approach to make the country to move towards cooperative federalism.

Maharashtra a land of many charms, a mix of natural beauty, cultural diversity, and talented, an trained manpower, leads for this transformation, making it into one of the most powerful emerging economies in comparison to other states of India.

The AUM LAI Chapter and its members will be a "FACILATOR", towards providing linkage with the already established examples of sustainable land use, and economy, in this endeavor.

"Make in India"... is the clarion call of the day, it has various sectors and policy reforms for development. Enterprising global investors, patriotic nonresident Indians, and others, from all over the world, are more than eager to respond, to this call.

The number of urban policy measures, and the "Smart City Drive", initiated by the Government Of India, not only is attracting investments, but also is focusing on improving the infrastructure, enriching the environment, and above all improving the quality life for urban, and other dwellers.

In tune with this national initiative, the leadership of Maharashtra State is pursuing a broader program "A SMART LIFE" its content being smart parking, transport, water management, maintenance, citizen safety, friendly life, and tele care, to attract investments to its cities, within the state of Maharashtra, which will per force be required to access the Public Private Partnership route.

Therefore a need for a perfect blend of local enterprising enthusiasm, coupled with International expertise, and experience, in land economics, and

land use, is the need of the hour, to ensure that every precious investment made would be an investment in prosperity, and growth, for a successful and sustainable development.

With this thought in mind, AUM LAI Chapter, is all set to bring together the brightest, and the most innovative ideas in land development, and redevelopment, and in various other sectors relating to land, at this AUM LAI Global Conference March 2017.

IMPETUS: This AUM LAI Global Conference "a tour de force event" on Land use, and Land economy, and its multidimensional paradigms of development, and will present a unique opportunity for all LAI members, their guests, business and media partners, etc., to understand and learn more about Maharashtra and India, its cities, its urban areas, and village development efforts, and the investment opportunities available in Maharashtra, and in India.

PURPOSE: To showcase LAI Global Chapter member expertise in the many facades of land use and economics.

This conference will feature international speakers, experts and practitioners including academicians, on the one hand, and close interaction with our professionals, policy makers, and bureaucrats, to share their knowledge, intellectual inputs, practical insights and global experiences.

This conference will give access to participants, local and international, individuals, representatives of the Nation, the State of Maharashtra, the Mumbai government, renowned economists, planners, leading local developers, an extensive network of opportunities available in Maharashtra and the rest of India. An added attraction, to the AUM LAI Conference will be a relaxed, and meaningful, city, and project tours, to understand and feel the pulse for business investments, and opportunities.

Also available to all participants will be, the vibrant, and important linkage, to LAMBDA ALPHA INTERNATIONAL, (LAI), the parent body of AUM LAI, and LAI, Asia Pacific Rim, for sustainable knowledge, and a lasting business relationship.

AUM-LAI Chapter, Maharashtra, India

AUM LAI is the first chapter to be given a charter by LAMBDA ALPHA INTERNATIONAL (LAI) in this part of the world, India.

Due appreciation, to the pioneering efforts of Mr Anilkumar J Hatkar, a leading industrial Architect, who networked with LAI over the years, and is now President AUM LAI. Mr Anilkumar J Hatkar, is also the Assistant Vice President LAI Asia Pacific Rim.

LAMBDA is the Greek word for use of land, and ALPHA the Greek numerical. The chapter members of LAI, consist of outstanding individuals from all over the world who have distinguished themselves in various disciplines and spheres related to land use, and land economy. LAI "NOT FOR PROFIT ORGANIZATION" is committed to Best practices, High standards of professional ethics, and Excellence, in relation to land use and economics.

AUM LAI joins a galaxy of over 2500 LAI chapter members across 27 LAI chapters across the world, in USA, Europe, U. K., Asia Pacific Rim and now in India. AUM LAI's mandate is to introduce to India, Global standards and bench marking, valuation, and best practices, to be incorporated in Land-Use and Land Economics, thereby assisting the Governments wish list for an all-inclusive development of India.

Membership to this august body is strictly by invitation only, to an individual who has excelled in his or her subject of work related to Land-Use and Land Economics.
